Virtual Panel - U.S. Climate Crisis Policies and Programs: What's new, and what more is needed?

Thursday, March 16th - 7:00 to 8:00 pm

Please RSVP to Bob Davidson at RHDavidsonJR@gmail.com Your Zoom link will be provided in response.

Join mentors and mentees of the DC [Dartmouth Bridges to Impact Program](#) for a conversation with key Dartmouth alumni who helped produce the most significant climate protection legislation in U.S. history.

Discussion will include: major climate change reduction and mitigation programs enacted under the Inflation Reduction Act of 2022, potential implementation issues, additional climate-related legislation Congress needs to pursue, and potential executive branch actions in this area. For example, what more can federal agencies do to keep our nation on track to cut climate pollution in half by 2030?
